Neuro-ophthalmology Fellowship, Alfred Health

We invite applications for this two-year neuro-ophthalmology subspecialty training program at Alfred Health and the Royal Victorian Eye and Ear Hospital. In addition to neuro-ophthalmology, the Fellow will be expected to do one session a week of supervised neurophysiology. This clinical position is best combined with a higher research degree such as an MPhil with several research projects available. Please contact A/Prof Anneke van der Walt: Anneke.vanderwalt@monash.edu for further information.

MS and Neuroimmunology Fellowship, Alfred Health

We invite applications for a MS and Neuroimmunology fellowship at Alfred Health, Melbourne. This is a subspecialty training position in MS and neuroimmunology with exposure to three specialty MSNI clinics a week. The appointee will be required to consider enrolling in a PhD program, Department of Neuroscience, CCS, Monash University. Please contact A/Prof Anneke van der Walt: Anneke.vanderwalt@monash.edu for further information.
