

## Canberra Neurology (Private practice)

Email- [admin@canberra-neurology.com.au](mailto:admin@canberra-neurology.com.au)

Join our dynamic team at Canberra neurology (private practice), an upcoming group practice seeking consultant neurologists to enhance our comprehensive care provision to the Canberra community.

As a consultant neurologist you will spearhead the delivery of exceptional neurological consultation services . Nerve conduction studies can be performed on site. EEG and MRI can be accessed at nearby locations.

As a member of our team, you will have the opportunity to expand your scope of practice by admitting patients and attending consults at a nearby private hospital. This presents an exciting avenue for professional growth and the cultivation of lasting patient relationships.

The ideal candidate must have FRACP in neurology and a fellowship in neurophysiology/EEG will be desirable.

Our team will be available to meet in person (with prior appointment) at the ANZAN -ASM 2024 that is being organised at Adelaide in May .

For a confidential discussion, please email your recent cv today at [admin@canberra-neurology.com.au](mailto:admin@canberra-neurology.com.au) and we will get in touch with you.
