

Neurologist

Location

Te Whatu Ora - MidCentral, Palmerston North

Description

Te Pae Hauora o Ruahine o Tararua | MidCentral are inviting applications for a Neurologist to join two others in its Neurology service at Palmerston North Hospital. We want to recruit a Neurologist with an interest in Stroke. You will join two other Neurologists in our Palmerston North service and work with us in developing responsive ways of meeting the needs of our growing population and develop models of care across the region. If you are someone who is enthusiastic around service improvement and working in new ways as part of a multidisciplinary team, we want to talk to you.

The department offers regular meetings with Neuroradiology and Neurosurgery, as well as teaching, research, and learning opportunities. It also features an active MS treatment centre including:

- the most modern infusion therapies
- regular Motor Neuron Disease MDT meetings
- TIA clinic slots
- epilepsy clinics including international Epinet trials and fast track clinics
- an active Botulinum Toxin Clinic

If you are interested in a role which provides the opportunity to maintain and build on your skills in Stroke this will be a good opportunity to take your career to the next stage.

For more information on the role, visit midcentraldhb.govt.nz

Essential qualifications

Applicants must be eligible for vocational registration in Internal Medicine with the Medical Council of New Zealand with specialist training/qualification in Neurology and have demonstrated clinical, management, and teaching skills.
