**Consultant Neurologist / Neurophysiologist Positions**

Macquarie Neurology is currently recruiting for Consultant Neurologists and Neurophysiologists to work in our practice. Consultants can tailor their working hours to suit. You can choose to work full time or part time and remuneration is on a percentage of billings basis. We have a large referral base if you are starting out as a neurologist or you may choose to bring your existing patients with you. We are a paperless practice with comprehensive neurophysiology available in house. Accreditation is possible at Macquarie University Hospital to manage your inpatients. There are also academic and research opportunities within the Faculty of Medicine and Health Sciences at Macquarie University.
